1 Summary of significant accounting policies

The interim financial statements for the half-year ended 31 December 2012 have been prepared in accordance with NZ IAS 34 interim financial reporting and IAS 34 interim financial reporting.

These interim financial statements do not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 30 June 2012. The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, unless otherwise stated.

Statutory base

Michael Hill International Limited is a public company registered under the Companies Act 1993 and is domiciled in New Zealand. The company has its primary listing on the New Zealand Stock Exchange.

The interim financial statements have been prepared in accordance with the requirements of the Financial Reporting Act 1993 and the Companies Act 1993. The interim financial statements of the Group are for the economic entity comprising Michael Hill International Limited and its subsidiaries.

The reporting currency used in the preparation of these consolidated interim financial statements is New Zealand dollars, rounded to the nearest thousand.

2 Segment information

Identification and description of segments

The operating segments are identified by the Board and Executive Team based on the country in which the item is sold.

The Executive Director and Executive Team consider, organise and manage the business from a geographic perspective, being the country of origin where the sale and service was performed. Discrete financial information about each of these operating businesses is reported to the Board and Executive Team monthly, via the preparation of the Group financial report.

The Group operates in 4 geographic segments: New Zealand, Australia, Canada and the United States of America.

Types of products and services

Michael Hill International Limited and its controlled entities operate predominately in the sale of jewellery and related services. As indicated above, the Group is organised and managed globally into geographic areas.

Major customers

Michael Hill International Limited and its controlled entities sells goods and provides services to a number of customers from which revenue is derived. There is no single customer from which the Group derives more than 10% of the total consolidated revenue.

Accounting policies and inter-segment transactions

The accounting policies used by the Group in reporting segments internally are the same as those contained in note 1 to the accounts and in the prior period.

It is the Group's policy that if items of revenue and expense are not allocated to operating segments, then any associated assets and liabilities are also not allocated to segments. This is to avoid asymmetrical allocations within segments, which management believes will be inconsistent.

Unallocated expenses include all expenses that do not relate directly to the relevant segment and include: manufacturing activities, warehouse and distribution, general corporate expenses, interest and company tax. Inter segment pricing is at arm's length or market value.

Review report to the Shareholders of Michael Hill International Limited

We have reviewed the interim financial statements on pages 1 to 9. The interim financial statements provide information about the past financial performance of the Group and its financial position as at 31 December 2012.

This information is stated in accordance with the accounting policies set out in the Group's annual financial statements dated 16 August 2012.

This report is made solely to the Group's shareholders, as a body, in accordance with Review Engagement Standards issued by the Institute of Chartered Accountants of New Zealand. Our review has been undertaken so that we might state to the Group's shareholders those matters we are required to state to them in a review report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Group and the Group's shareholders as a body, for our review work, for this report, or for our findings.

Directors' Responsibilities

The directors are responsible for the preparation of interim financial statements which comply with generally accepted accounting practice in New Zealand as it relates to interim financial statements and which present fairly the financial position of the Group as at 31 December 2012 and the results of its operations and cash flows for the six month period ended on that date.

Reviewer's Responsibilities

We are responsible for reviewing the interim financial statements presented by the directors in order to report to you whether, in our opinion and on the basis of the procedures performed by us, anything has come to our attention that would indicate that the interim financial statements do not present fairly the matters to which they relate.

Basis of Statement

A review is limited primarily to enquiries of Group personnel and analytical review procedures applied to financial data and thus provides less assurance than an audit. We have not performed an audit and, accordingly, do not express an audit opinion.

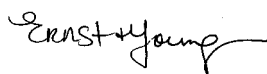

We have reviewed the interim financial statements of the Group for the six months ended 31 December 2012 in accordance with the Review Engagement Standards issued by the External Reporting Board. These standards require that we plan and perform the review to obtain moderate assurance as to whether the statements are free of material misstatement whether caused by fraud or error. We also evaluated the overall adequacy of the presentation of information in the interim financial statements.

Other than in our capacity as auditor we have no relationship with, or interest in, the Group or any of its subsidiaries.

Statement of Review Findings

Based on our review nothing has come to our attention that causes us to believe that the accompanying interim financial statements, set out on pages 1 to 9, do not fairly present the financial position of the Group as at 31 December 2012 and its financial performance and cash flows for the six month period ended on that date in accordance with generally accepted accounting practice in New Zealand as it relates to interim financial statements.

Our review was completed on 14 February 2013 and our findings are expressed as at that date.
